

# Project User Guide

<Your Team>

December 22, 2025

## 1 Overview

Briefly describe the project, its audience, and what this guide covers.

## 2 Getting Started

- Prerequisites (tools, data, accounts)<sup>1</sup>
- Setup steps (clone, install, run commands)
- How to verify the installation

## 3 Key Workflows

- Workflow 1: summary and steps
- Workflow 2: summary and steps
- Troubleshooting tips

## 4 Data Handling and Privacy

State data sensitivity, PII handling rules, and logging expectations.

## 5 Support and Contacts

List owners or channels for questions/bugs.

---

<sup>1</sup>Avoid PII; link to secure setup docs if needed.
